

Establishing and Maintaining Positive Relationships Between Hospital and Nursing Institute

Khondoker Arif Hosain

Deputy Nursing Superintendent (ret)
Patuakhali Hospital

National Nursing Leadership Conference
14 February 2014

Background of Patuakhali Hospital

Patuakhali Hospital is situated at the centre of Patuakhali Sadar at the bank of river Lohalia. It was established in 1979. That time it was only 100 bedded Hospital. Now it is a 250 bedded hospital.

Background of Patuakhali Nursing Institute

Patuakhali Nursing Institute is situated beside the Patuakhal Hospital. It was established in 1979. That time it could admit only 25 students in a year. But now it increased up to 80 students.

My Experience -

- From 1981-1993 I worked as a senior staff nurse in Patuakhali General Hospital
- From 1993-2015 I worked as Nursing Supervisor.
- From 2015 I was working as Deputy Nursing Superintendent.

- 
- In 1981 there was only 12 posts of Senior Staff nurse, 6 posts of Attendant nurse and only one Nursing Supervisor in Patuakhali General Hospital.
 - There was only one post of Nursing Instructor In Charge in the Patuakhali Nursing Institute, in 1981

- 
- Now there are 83 posts of Senior Staff nurse, 6 posts of Attendant nurse, 4 posts of Nursing Supervisor, 1 post of Deputy Nursing Superintendent and 1 post of Nursing Superintendent

- 
- Now there is one post of Nursing Instructor In Charge and 8 posts of Nursing Instructor in the Patuakhali Nursing Institute

- 
- I always guide the student nurses to do their clinical practice in the following:
 - ❑ How to Provide nursing care to all levels of patients.
 - ❑ How to deal with patients and their relatives

- 
- Minimize different types of professional and non-professional environmental conflict.
 - Always attend the nursing institute's monthly meeting and try to solve students problems.
 - Maintained relationship with the nursing instructor in charge how to move the students any where for clinical practice

- 
- I always guide the nursing staff and students to improve the quality of nursing care.
 - Establish interpersonal relationship with doctors, nurses and other health care team
 - Concern about their safety and security during practice hour

- 
- Encourage the students how to develop their clinical practice according to their subject.
 - Discuss some topic related to nursing care
 - Maintain communication with nursing Institute
 - Encourage to best work for reward.

Outcome -

- Ensuring student's safe clinical practice
- Improving quality of care
- Facilitating student's learning
- Establishing interpersonal relationship with the nursing institute and other institute

- 
- Less conflict between hospital and nursing institute
 - Increase mutual respect
 - No broker and no incidence of taking bribe from patient
 - Friendly relationship between Hospital and nursing institute

This is my great pleasure to present my personal experience of positive relationship of my working place.

Thanks
